Aluminium front doors

We have a selection of high performing front doors that will cope with demanding modern day life. Our contemporary aluminium front doors are available in a wide range of styles and colours.

To see how our front doors operate visit idsystems.co.uk/front-doors or scan this QR code ▶

Choose from 20 different designs to find the door that best suits your home.

Once you have chosen your design and picked your colour you can then personalise your door by selecting your feature handle from our comprehensive range.

Then add a letter plate, door knocker or spyhole and we will custom manufacture your door to your exact requirements.

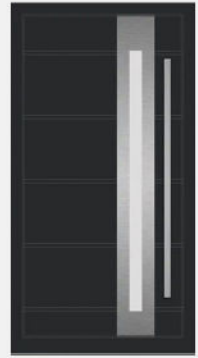

All of our aluminium doors come with a choice of tracks (including a Part M compliant flush track) and also feature PAS 24 compliant high performance, multi-point locking as standard, providing a high level of security and complete peace of mind.

For the perfect finishing touch you can even opt for key-less or biometric locking if you require.

The images above are for illustration purposes only. The design of the door may vary slightly dependent on the size of the door and the hardware choices made. Each style of door can be manufactured with any of our handle options in one of three standard colours, or you can choose from more than 200 RAL colours and finishes.

* The layout of this door does not allow for a letter plate to be included within the design.

Handles and hardware

Our front doors are available with a range of handles and hardware to allow you to personalise your doors to your exact requirements.

We offer a wide range of handles, locking and hardware options. The stainless steel furniture below is available in marine grade 316 stainless steel as standard to provide a contemporary finish in even the toughest of locations. We can also fit your door with a range of hardware including keyless or electrical locking and digital entry viewer upon request

Rectangular T-bar handle

Material: Brushed 316 stainless steel
 Sizes: 400mm, 900mm, 1200mm or 1500mm

Round T-bar handle

Material: Brushed 316 stainless steel
 Sizes: 400mm, 600mm, 900mm, 1200mm, 1500mm or 1800mm

Square door pull

Material: Brushed 316 stainless steel
 Size: 80mm x 80mm

Lever handles

Our lever handles are available powder coated in standard colours or in stainless steel finish. The backplates of the handles can be configured with / without key locks or with an internal thumb turn

Stainless steel handles
 Size: 250mm height

Powder coated handles
 Size: 246mm height

For our front doors you can choose from a number of door furniture options including a range of stainless steel door knockers and spy holes, plus letter plates.

Security as standard

All our front doors feature an advanced multi-point locking system and ultra-secure key cylinders as standard

We understand that the first test of a front door is not how it looks, it is how secure it is. That is why we fit all of our front doors with Winkhaus® autoLock AV3™ lock systems.

The PAS 24 and Secured by Design™ approved autoLock AV3™ system features an innovative magnetic trigger in the outer frame of the door, four self-locking solid hooks ensure a secure closure and these are combined with a central latch and dead bolt.

The autoLock AV3™ is available with an optional day time latch which allows you to open the door from the outside without a key - ideal if you are just nipping to get something from the car as an example.

To provide complete peace of mind all of our doors are installed with ISEO™ F6 Extra S key cylinders. The SKG® 3-star rated cylinder carries the prestigious BSI Kitemark™ and features a 6-pin anti-bump, anti-drill, anti-pick and anti-snap cylinder design.

For those looking for the latest in locking technology our front doors can be installed with a Winkhaus® blueMatic EAV3™ motorised locking system that can be paired with access control systems such as fingerprint reader, contactless entry or even facial recognition.

Colours

There are over 200 RAL colours to choose from, a dual colour option giving different colours to the inside and outside is available as an additional extra.

We have chosen three of our most popular finishes as standard stocked colour finishes, which are Jet Black RAL 9005 matt, Anthracite Grey RAL 7016 matt and Gun Metal Grey DB703 textured.
